

DATAPEL SYSTEMS INVENTORY CONTROLLER XE

ADVANCED STOCK CONTROL FOR
GROWING SMALL TO MEDIUM BUSINESSES

SMART PICK-PACK-SHIP

Reduce search times and spoilage with intelligent, rule-based stock retrieval. Choose FIFO, MIN, MAX or expiry-date based picking LEXFO AND FEXFO.

MULTIPLE LOCATIONS AND BINS

Manage stock in multiple *virtual* warehouses and track stock in specific bins.

FLAGS FOR QUALITY CONTROL

Print and scan barcode labels. Improve data entry accuracy. A range of barcode scanners are available for different requirements and mobility.

DOCUMENT ATTACHMENTS

Drag and drop emails, PDF or Microsoft Office® documents into Inventory Controller XE. Track product specification documents, batch-related quality documents and warranty information.

ADVANCED CONTROL NO MATTER WHAT BUSINESS YOU ARE IN

Introducing the Datapel Inventory Controller Xpress Edition, advanced stock control system incorporating best-practice processes for managing inventory.

Looking for a cost-effective stock control solution for your growing business? Inventory Controller XE delivers

comprehensive stock control features without the need to overhaul existing business systems.

SERIAL AND BATCH TRACKING

Critical for companies that need quality control or are seeking quality accreditation. Simplify warranty and returns management.

ADVANCED STOCK LOOKUP

Powerful searching capabilities. Locate stock by partial item number, name, batch, bin, or custom fields. Search by barcode.

MANAGE ITEMS AND CUSTOMERS

Create customers and items on the fly, or easily import via Microsoft Excel® or CSV. Assign barcodes, custom fields and multiple categories.

FLEXIBLE REPORTING

Full stock and sales reporting such as inventory, transfers, movements and stock valuation by location or bin. Harness powerful reporting by industry standard Crystal Reports® with support for customisation.
