

# Freight Carrier Adapter

## DPL Generic Freight Adapter

DPL Generic Carrier Adapter Module offers a carrier solution which unifies your preferred shipping freight carrier to Datapel Warehouse Management System.

Using DPL Generic Carrier module minimizes tedious manual data entry typically required by shipping personnel and automates the shipping process of updating all data files. There will be significant improvements in shipping throughput, delivery accuracy and more timely and complete information available to Sales Representatives.

DPL Generic Carrier Adapters are available with any of the built-in carrier systems including TOLL IPEC, TNT, Australian Air Express, Australia Post and Star Track Express.
